

# A LETTER TO GOD (Question my religion)

Dear Sir,

How is junior and his virgin mother? I know junior is sitting on the right hand side of your throne, but I don't know who's sitting on your left hand side. But whoever it is, extend my greetings to everyone.

Sir, lots of things have been puzzling my mind regarding your existence, and since I don't want to "lean unto my own understanding" to solve this puzzle, I do implore you to bequeath to me your "spiritual understanding," as a panacea to these questions sir!

I want to know where you resided before you created heaven/Earth and I also want to know who created you?

Was Melchizedek with you before you created heaven and earth? We're told in the bible that Melchizedek had no father and mother; that he had no beginning and end (an attribute I thought was your exclusive right)!

If he had beginning and end, how come we're told Adam was the first man you created?

You never even told us when you created hell and the other planets! You only mentioned heaven and earth! Where cometh Mars, Venus, Jupiter, Mercury, etc. Pls, explain?

Your lordship sir, you said day and night were created before the sun and moon. How is this possible sir? It beats me hollow that you as an Almighty didn't even know without the earth orbiting the sun, there would be no day and night! Ahhh! I think you need some science books to correct your mistakes sir!

You even created plants before the sun! This is a joke right? You also admonished us to eat from every plant and tree which yields seed! Including poisonous plants like oleander, nightshade and hemlock?! You want us poisoned?! You didn't say this, did you? Sir, why did you keep a forbidden fruit to tempt Mr. Adam and Mrs. Eve when you already knew they will eat from the fruit since you are an all-knowing God? This bewilders me sir.

Why didn't you place your 'Angles' around the "tree of good and evil" to prevent them from eating the forbidden fruit in the first place! You forgot?

Regarding the "curse of Eve," you promised every woman would endure excruciating child labor pain because of Eve's sin.

Sir! Why do female hyenas face worse pain in labor than even humans? Did they eat forbidden meat or bones? Sir! Am confused.

I'm not questioning your motives sir, but you could have done better, at least save us from this dramatic quagmire! Oh! Lest I forget, did that snake speak Hebrew, Arabic, or Aramaic language? You didn't tell us.

Every time I read the story of Noah, I wonder how a "merciful gather like you would drown innocent babies and animals who never offended you! That you didn't even feel remorseful about it makes me shudder!

Don't you think killing all those innocent ones together with the 'sinful ones' smacks of burning a whole house just to kill mosquitoes?

You never told us the people who were trying to kill Cain after he killed his brother. You placed a mark on him. Who were these people, since only three people were on earth then? And..... where did Cain get his wife?!

Solomon sacrificed 22,000 oxen and 120,000 sheep to you under one week! Sir, you must be the greatest glutton I've ever heard of!

I do agree that you're all-powerful sir because you created our world in six days! But, how do I reconcile this your omnipotence with your inability to drive out the inhabitants of the valley, because they had chariots of iron?!

If you couldn't defeat those 'chariots of iron', what chance do you have against our present generation with high-tech defense shield, missiles and nuclear weapons? You must be joking!

Is it also true that 'stilled' the sun for Joshua to enable him to see clearly to kill more people? How could that be, when we know the sun has always been stationery to earth?

Sir, replicate those 'thaumaturgies' they did during those days, now that we have video cameras! You know, this could help in making those wretched heathens see the light.....

Yours faithfully

Your son,

.....
